**Part C (Answer any 1 question(s). Each carries 7 marks)**

15. Read the given passage carefully and write a précis in about one-third of the original length.

Holidays are special days when people take a break from work or school to relax and enjoy themselves. They can be for religious celebrations, national events, or just to spend time with family and friends. During holidays, people often travel to different places or stay at home to rest. Many holidays are filled with activities like eating special meals, playing games, or watching movies. Some holidays are observed by specific cultures or countries, while others are celebrated worldwide. Holidays are a time to relax, reflect, and create memories. They offer a chance to recharge and return to daily life with more energy. People look forward to holidays

because they bring joy and a break from routine. Overall, holidays are important for happiness and well-being.

7

16. Read the passage and answer the following questions.

Artificial Intelligence (AI) refers to the simulation of human intelligence in machines that are programmed to think, learn, and problem-solve. AI systems can perform tasks that usually require human intelligence, such as recognizing speech, understanding language, making decisions, and visual recognition. AI is used in various fields, including healthcare, transportation, education, and entertainment. For example, AI helps doctors diagnose diseases, self-driving cars navigate roads, and recommendation systems suggest movies or products based on preferences. While AI offers many benefits, such as increased efficiency and convenience, it also raises concerns about job displacement, privacy issues, and the potential for misuse. As AI continues to evolve, it is important to balance its advantages with ethical considerations to ensure that it is used responsibly and for the betterment of society.

1. What is Artificial Intelligence (AI)?
2. In which fields is AI commonly used?
3. How does AI help doctors and healthcare professionals?
4. What are some benefits of AI in everyday life?
5. What are some concerns associated with the use of AI?
6. How can AI affect jobs and employment?
7. Why is it important to consider ethics in the development of AI

7

**Second Semester FYUGP Hindi Examination**  
**APRIL 2025 (2024 Admission onwards)**  
**KU2AECHIN104 (ASWADAN KI HINDI)**  
**(DATE OF EXAM: 24-4-2025)**

Time : 90 min

Maximum Marks : 35

**Second Semester FYUGP Computer Science Examination**  
**APRIL 2025 (2024 Admission onwards)**  
**KU2DSCCAP106 (PROGRAMMING USING C AND C++)**  
**(DATE OF EXAM : 28-04-2025)**

Time : 90 min

Maximum Marks : 50

**Part A (Answer any 6 questions. Each carries 2 marks)**

1. Write the difference between a string and a character with examples. 2
2. What is the difference between local and global variables in C? 2
3. List different storage classes in C. 2
4. List any two functions used in dynamic memory allocation in C. 2
5. How Data abstraction is differ from Data Encapsulation?. 2
6. How dynamic allocation is achieved in C++ programming?. 2
7. what are the characteristics of a friend function?. 2
8. What is the purpose of using pointers to derived classes? 2

**Part B (Answer any 4 questions. Each carries 6 marks)**

9. Write a C program to check if a given string is a palindrome. 6
10. Explain the types of storage class and scope of variables in C with the code given.

```
#include <stdio.h>
int my_num = 7;
void my_func()
{
    printf("my_num value inside function is %d\n",my_num);
}
int main()
{
    int my_num=10;

    printf("my_num value inside main is %d\n",my_num);
    my_func();
    return 0;
}
```

6

11. Write a C program that defines a structure for a student and demonstrates how to access its members. 6

12. Compare procedure oriented programming paradigm with Object oriented programming. 6
13. How is a friend class different from a friend function? 6
14. Write a C++ program to design a base class Person (name, address, phone\_no). Derive a class Employee (eno, ename) from Person. Derive a class Manager (designation, department name, basic-salary) from Employee. Write a program to accept and display details of 39 managers. 6

**Part C (Answer any 1 question(s). Each carries 14 marks)**

15. (a) How is memory management performed dynamically in C? Suppose you have to store 10 integers. Write the syntax to allocate memory dynamically. Meanwhile you need to store an additional 5 integers. Write the syntax to allocate memory Dynamically for the extra requirement. 7
- (b) Illustrate how pointers can be passed to functions in C. 7
16. (a) What is this pointer in C++? Explain its significance with an example. How does it help in resolving naming conflicts? 7
- (b) Explain the concept of pointers to objects in C++ with an example. How can we use pointers to access members of a class? 7
